Saving Energy and Creating Healthy, Comfortable Environments

Berner air curtains improve walk-in cooler efficiencies by 27%

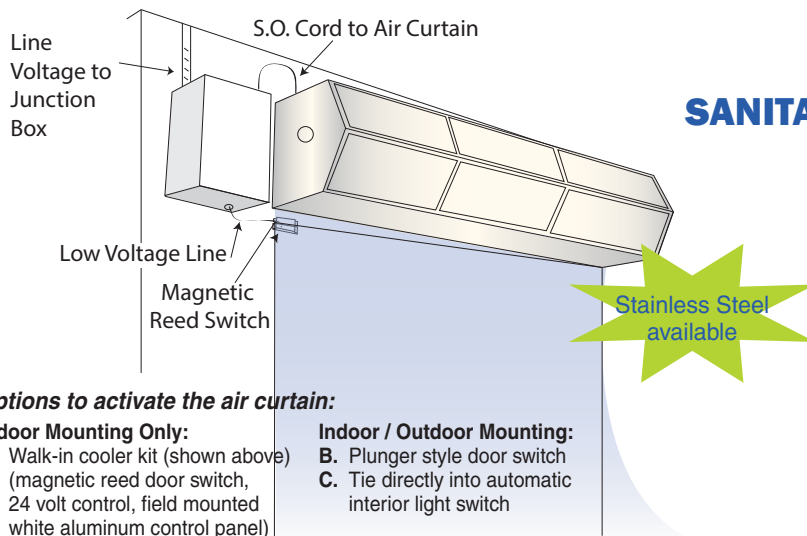

Testing shows that Air Curtains on Walk-in Coolers protect temperatures and reduce compressor run-times.

Graph shows a peak period taken from two weeks of on-site testing in a restaurant kitchen.

For more information on this study refer to, "Arby's Franchisee Test Proves Air Curtains Improve Walk-in Cooler Efficiencies by 27%"

*during periods of high cooler traffic
